LGT - Community Leadership: Coming Through for Not-For-Profits in May

For more than sixty years Lane Gorman Trubitt, L.L.P. has been proud to call the Dallas/Ft. Worth Metroplex our home. Since its inception our firm has made it our mission to be a responsible leader in the DFW community and 2010 has proven to be no exception.

Recently, LGT employees have participated in events benefiting two of the largest not-for-profit organizations in North Texas, the Dallas Arboretum and the Arthritis Foundation.

The Dallas Arboretum's Annual Plant Sale

On Friday, May 7th LGT took part in the Dallas Arboretum's annual, members only, private plant sale event. This event provides Arboretum members with the opportunity to purchase a wide range of unusual, unique and hard-to-find plant life and materials. LGT employees gave of their time and energy as they volunteered for this important event which contributes to the Arboretum's mission to expose North Texas residents to the stunning array of botanical life on our planet.

The Dallas Arthritis Walk

Lane Gorman Trubitt, L.L.P. received an award for assembling the largest corporate team for this year's walk which benefited the Dallas Arthritis Foundation. Held the morning of May 15th, the walk had an impressive turnout and raised a lot of money in the name of a very worthy cause. Arthritis is a crippling condition that, contrary to popular belief, affects people of all ages including children. The Arthritis Foundation is the largest contributor to not-for-profit research in the world, and with the help of private citizens, local businesses and generous volunteers they continue to help in the search for a cure.

If you would like to learn more about either of these worthwhile organizations or would like to make a donation we encourage you to visit their websites. The Dallas Arboretum is located at www.dallasarboretum.org, and you can visit the Arthritis Foundation at www.arthritis.org.
